\* and \*\*

25X1 \* [REDACTED] Comment. This is the first report on supply traffic through the Seddin marshaling yard. It is believed that the list of shipments is incomplete as a total of 507 carloads through Seddin in seven weeks is considered too low. Moreover, a daily average of 12 carloads passed through Seddin, while a daily average of 19 carloads passed through the Wustermark marshaling yard, a minor yard. The dispatching stations and receiving stations mentioned in the report confirm the supply traffic net.
